

HEAL 2021

HEALTHY ENVIRONMENTS AND LIVES CONFERENCE

17TH - 18TH NOVEMBER 2021

Join us at the **2-day virtual and live HEAL 2021 Conference** to experience an inspirational forum for knowledge transfer, scientific debate, and community-wide conversations about human health, climate and environmental change solutions in Australia. It involves researchers, policy makers, health practitioners, Aboriginal and Torres Strait Islander organisations, community members, charities, businesses and other stakeholders from across Australia.

This highly innovative conference will have a hybrid multi-node format, which will stimulate debate, provide in-person interaction and networking opportunities for participants covering all Australian jurisdictions, as well as an enhanced online experience for virtual participation from Australia and overseas.

Please submit an abstract to present your research or community project, and register to attend the event and share your knowledge.

Professor Sotiris Vardoulakis
Australian National University
HEAL 2021 Conference Chair
